

CLAIMS

1. Non-rinsed cosmetic keratin fibre care or makeup composition, comprising at least one fatty phase comprising at least one structuring agent consisting of the combination of a specific compound and at least one oil, said composition containing no waxes and exhibiting a solids content defined by a dry solids extract of more than 45% by weight.

2. Composition according to Claim 1, having a consistency index of less than 1 000 Pa.

3. Composition according to Claim 1, having a dry solids extract of more than 46% by weight, preferably more than 47% by weight, more preferably more than 48% by weight and better still more than 50% by weight.

4. Composition according to any one of the preceding claims, having a consistency index of from 1 to 900, preferably from 10 to 800.

5. Composition according to Claim 1, wherein the fatty phase represents from 10 to 60%, preferably from 15 to 50%, more preferably from 20 to 40% of the total weight of the composition.

6. Composition according to Claim 1, wherein the structuring agent has a tack value \geq 0.1 N.s, in particular from 0.1 to 30 N.s; preferably \geq 0.5 N.s, in particular from 0.5 N.s to 20 N.s; better still \geq 0.8 N.s, in particular from 0.8 to 10 N.s; and even better still \geq 1, in particular from 1 to 5.

7. Composition according to Claim 1, wherein the structuring agent has a hardness value \leq 30 MPa, in particular between 0.01 to 30 MPa; preferably between 0.05 to 25 MPa; better still between 0.1 and 20 MPa.

8. Composition according to Claim 1, wherein the specific compound is selected from semi-crystalline polymers; fatty-phase rheological agents, such as

polyamide-type polymers and hydrophobic silicas; and mixtures thereof.

9. Composition according to Claim 8, wherein the semi-crystalline polymers are selected from polyacrylates which are modified by an alkyl chain, are solid at ambient temperature and have a melting point of more than 30°C and less than 150°C.

10. Composition according to Claim 1, wherein the oil is selected from volatile and non-volatile hydrocarbon, silicone and/or fluorinated oils and mixtures thereof.

11. Composition according to any one of the preceding claims, wherein the oil has a molecular mass greater than or equal to 250 g/mol, in particular between 250 and 10 000 g/mol, preferably greater than or equal to 300 g/mol, in particular between 300 and 8 000 g/mol and better still greater than or equal to 400 g/mol, in particular between 400 and 5 000 g/mol.

12. Composition according to any one of the preceding claims, wherein, in the fatty phase, the ratio of the oil(s) to the specific compound(s) is from 10/90 to 90/10, preferably from 20/80 to 80/20 and more preferably from 30/70 to 70/30.

13. Composition according to any one of the preceding claims, being anhydrous.

14. Composition according to any one of Claims 1 to 12, comprising water or a mixture of water and hydrophilic organic solvent(s).

15. Composition according to Claim 8, wherein the hydrophilic organic solvent(s) is (are) selected from monoalcohols having 2 to 5 carbon atoms, polyols having 2 to 8 carbon atoms, C₃-C₄ ketones and C₂-C₄ aldehydes.

16. Composition according to either of Claims 14 and 15, wherein the water or the mixture of water and hydrophilic organic solvent(s) is present in an amount ranging from 0.1% to 90% by weight relative

to the total weight of the composition, and preferably from 0.1% to 60% by weight.

17. Composition according to any one of the preceding claims, characterized in that it comprises a film-forming polymer.

18. Composition according to Claim 17, wherein the film-forming polymer is selected from the group consisting of vinyl polymers, polyurethanes, polyesters, polyamides, polyureas and cellulosic polymers.

19. Composition according to Claim 18, wherein the film-forming polymer is present in an amount, in terms of dry polymer material, ranging from 0.1% to 60% by weight relative to the total weight of the composition, preferably from 0.5% to 40% by weight, and better still from 1% to 30% by weight.

20. Composition according to any one of the preceding claims, characterized in that it comprises a colorant.

21. Composition according to Claim 20, wherein the colorant is selected from pigments, nacres, fat-soluble dyes and water-soluble dyes.

22. Composition according to Claim 20 or Claim 21, wherein the colorant is present in an amount ranging from 0.01% to 30% by weight, relative to the total weight of the composition.

23. Composition according to any one of the preceding claims, characterized in that it comprises a cosmetic additive selected from antioxidants, fillers, preservatives, perfumes, neutralizing agents, thickeners, surfactants, cosmetic or dermatological active agents, plasticizers, coalescents and mixtures thereof.

24. Composition according to any one of the preceding claims, being a makeup composition, a makeup base, a topcoat composition to be applied over makeup, or a keratin fibre treatment or care composition.

25. Composition according to any one of the preceding claims, being a composition for coating the eyelashes, in particular a composition for making up the eyelashes, also called mascara, a composition to be applied over eyelash makeup, also called topcoat, or else a composition for treating the eyelashes, in particular the eyelashes of human beings or false eyelashes.

26. Composition according to Claim 25, being a mascara.

27. Cosmetic method of treating or making up keratin fibres, which comprises applying to the said keratin fibres a composition according to any one of Claims 1 to 28.

28. Method of coating the eyelashes which comprises applying to the eyelashes a composition according to any one of Claims 1 to 28.

29. Use of a composition according to any one of Claims 1 to 26 for making up keratin fibres.

30. Use of a composition according to any one of Claims 1 to 26 for obtaining easy and homogeneous application and makeup which exhibits an excellent volumizing and separating effect.
